

Online Training for your Nursing Staff

Concordance has partnered with MedTrainer, an award-winning, all-in-one compliance and training management solution for healthcare providers and administrators. Through this partnership, you can save time and money with access to interactive courses for your nursing staff and an easy-to-use tracking system.

How it Works

- Build your curriculum's from our library or your own course materials
- Assign courses to certain groups, roles, individuals or the whole team
- Use MedTrainer's onboarding paths to automate course assignments for new hires
- See who has completed courses
- Run reports to make sure everyone is on track

Features

- Designed to retain staff and improve compliance
- Award-winning learning platform
- Web-based programming
- Access to 500+ courses (multi language)
- User-friendly data and dashboards
- Facilities can manage their own rosters
- Customize with organization-specific training
- Dashboard to track staff progress at-a-glance

Get maximum flexibility. The MedTrainer platform rolls out new courses monthly based on industry changes and needs, allowing your organization to adapt quickly.
