Understanding the
health and trends of
your supply chain

WHY USE C-VISION?

The current state of the healthcare supply chain is very disjointed, but does it have to be? By using C-Vision, suppliers are equipped with on-demand data to help make better, informed decisions.

Collaborating Together

Real-time visibility to supply chain challenges and appropriate solutions.

Speed to Resolutions

Avoid unnecessary emails and phone calls by accessing real-time information quickly.

CONCORDANCE®
HEALTHCARE SOLUTIONS

The Power of Visibility

Imagine a world where . . .

Conversation becomes collaboration, working from one source of truth.

You can solve most challenges instantly without making multiple phone calls.

You know the status of your products in the supply chain at all times.

You have insights in to real-time Provider:

- Orders
- Backorders
- Sales Trends

You can see supply chain inventory levels to proactively manage risk.
